

Airfield Maintenance Technician

The Capital Region Airport Authority has an opening for
an Airport Maintenance Technician.

THE IDEAL CANDIDATE

Education:

- High School Diploma or GED equivalent.

Experience:

- Three years experience in the operation of gasoline and diesel powered vehicles and equipment having a gross vehicle weight of at least 26,000 lbs.
- Experience in the operation of concrete saws, chainsaws and other hand tools.

Other Requirements:

- Working knowledge of general construction practices used in pouring concrete, and repair/installation of asphalt and some masonry work.
- Valid State of Michigan Class A CDL with tanker endorsement.
- Ability to pass an FBI fingerprint based criminal history background check and a TSA security threat assessment and maintain eligibility for a security access badge in accordance with the Airport Security Plan.
- Must be available 24 hours per day, 7 days per week. Accordingly, work hours will vary weekly depending on department requirements.

COMPENSATION

Minimum hourly rate is \$17.21/hour (\$35,796.80 annually) with a comprehensive benefit package.

POSITION SUMMARY

Under the supervision of the Airfield Maintenance Manager, performs a variety of maintenance activities to repair and maintain pavements, grounds, utilities, gates, and fencing on and around the airport. Operates and maintains equipment unique to the airport to keep runways, taxiways, and roads free of snow and ice.

Responsibilities include but are not limited to:

1. Operates and maintains large, commercial snow removal equipment (some exceeding 26,000 lbs.) to keep runways, taxiways, ramps, roads, and other assigned areas free of snow and ice.
2. Operates and maintains a variety of equipment, such as large tractors, mowers, chainsaws, and related equipment to maintain Authority owned property on and around the airfield.
3. Performs routine maintenance, such as oil and fluid checks and changes and greasing, on Authority vehicles and equipment.
4. Performs maintenance, repairs, and installation of fencing and gates.
5. Operates equipment such as skid steer loaders with various attachments. Operates paving equipment such as rollers, concrete saws, crack sealers and Tac Wagon in maintenance of airport pavements, as well as vehicles involved in airport pavement painting.
6. Operates heavy equipment such as backhoes, bulldozers, rubber-tired front-end loaders and dump trucks in connection with assigned tasks.
7. Maintains shop areas and equipment in a clean, safe, and orderly fashion.
8. Operates powered hand tools to accomplish tasks.
9. Operates airport vehicles and equipment on the airfield, and communicates via ground control radios with FAA control tower in accordance with FAR Part 139.
10. Performs minor mechanical repairs and maintenance.
11. Operates Fork Truck.

This list may not be inclusive of the total scope of the job functions to be performed. Duties and responsibilities may be added, deleted, or modified at any time.

HOW TO APPLY

Please email your cover letter and resume to hr@craa.com for consideration. Position will remain posted until filled.
